

Flashtone Unispheres®

Pixel color correcting beads for instant HD skin complexion

Based on a unique encapsulation technology to stabilize pigment release, the Flashtone Unispheres® are designed to have a white exterior while highly loaded with color neutralizing pigments. They create a unique aesthetics while bringing instant skin tone correction.

Three colors to address all skin tone issues:

- › **Green:** conceal skin redness and pimples.
- › **Purple:** provide a healthy look (especially for pale skin) and prevent yellowish skin tone.
- › **Yellow/Orange:** fade dark circles while giving a tanned effect.

induchem

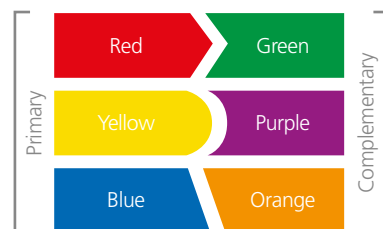

Focus on the product

Create a new generation of HD concealers!

With the aim of achieving a flawless skin tone, the use of concealers in tandem with foundation has become a steadfast routine for many consumers.

The Flashtone Unispheres® collection belongs to a new generation of beads highly loaded in color neutralizing pigments. When incorporated in white or transparent formulas, the spheres maintain their white bead appearance. Once dispensed they are then rubbed or mechanically disintegrated to release the pigments mix and instantly correct skin imperfections. The Flashtone Unispheres® collection is based on the color wheel: each pigment conceals its complementary color. Green neutralizes red, orange: blue and purple: yellow.

	Redness	Paleness	Dark circles	Yellowish	Dark spots	Pimples	Tiredness	Dullness
Yellow/Orange		•	•		•	•	•	
Purple		•		•			•	•
Green	•					•		

Efficacy

Flashtone Green: to conceal skin redness

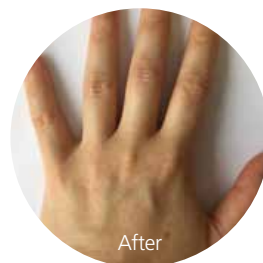

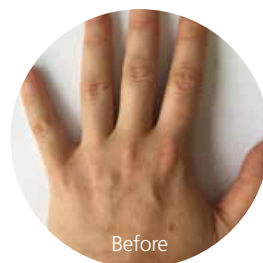

The correcting effect of the Flashtone G Unispheres® WGRM-746SBI was assessed on the hand of a woman volunteer. A foundation cream (0.2 mL) containing 2% of Flashtone G Unispheres® WGRM-746SBI was applied. Before/after pictures were done.

Results:

The Flashtone G Unispheres® WGRM-746SBI show an instant correction of the redness while homogenizing the overall complexion.

Tip:

For long term results, combine with Unisoath PN-47, the instant inflammation extinguisher.

Efficacy

Flashtone Purple: for a pinky and healthy complexion

The correcting effect of the Flashtone P Unispheres® WPRM-748SBi was assessed on the face of 2 Asian women volunteers (all kinds of skin). A foundation cream (0.8 mL) containing 2% of these beads was applied on their face. Before/after pictures were done with a standardized color mire.

Results:

The Flashtone P Unispheres® WPRM-748SBi show a natural pinking/blushing effect on the skin. A sallow complexion becomes much brighter.

Tip:

Obtain long term results by combining with Brightenyl®, the 7 in 1 skin tone biotimizer.

Flashtone Yellow/Orange: for an instant good looking effect

The correcting effect of the Flashtone Y Unispheres® WYRM-744SBi was assessed on the face of 4 Caucasian women volunteers (all kinds of skin). A foundation cream (0.8 mL) containing 2% of these beads was applied on their face. Before/after pictures were done with a standardized color mire.

Results:

The Flashtone Y Unispheres® WYRM-744SBi show a homogenized skin tone which appears as slightly tanned. These beads also mute the dark color of dark circles.

Tip:

For long term results combine with Unisooth EG-28, our anti-dark circles active.

Summary

Technical data

Composition: (INCI)	Mannitol, Cellulose, Barium Sulfate, Acrylates Copolymer, Silica, Hydroxypropyl Methylcellulose
Additives:	Flashtone G Unispheres® WGRM-746SBI CI 77891, CI 77289 Flashtone P Unispheres® WPRM-748SBI CI 77891, CI 77007, CI 73360, CI 77499 Flashtone Y Unispheres® WYRM-744SBI CI 77891, CI 77492
Size:	Small 500 - 1000 µm (average 750 µm)
Properties:	Color correcting effect Leave no shell or residues during application on skin Stable to light and over a wide range of temperatures and pH (4 to 10 for Flashtone G and Y; 6 to 10 for Flashtone P)
