## Product Information

### SPI-AR-1

CAS#: 61789-40-0

#### Description:

SPI-AR-1 is an aqueous Coconut-derived surfactant system designed for its low irritation potential in high temperature release additive applications. The product is mainly used as a lubricating membrane for asphalt release agents, and specifically for many roofing tile materials, but can be used in a wide range of industrial applications, including in conveyor operations and metal working. SPI-AR-1 can be easily diluted on-site to any desired use concentration.

#### Typical Properties

<i>Appearance (25°C)</i>	Clear, Light Straw
<i>Form</i>	Liquid
<i>Odor</i>	Soap-like
<i>Solids, %</i>	30
<i>Free Fatty Acid, %</i>	<0.5
<i>Free Amine, %</i>	<0.5
<i>pH, 1%</i>	6-7
<i>Density, lbs/gal</i>	8.65

The values mentioned are not intended for use in preparing specifications. We have made every effort to ensure these values are correct as of the revision date of this document.

#### Packaging

SPI-AR-1 is sold in drums, totes and bulk tankers.

#### Toxicity and Handling

Please see our SPI-AR-1 safety data sheet for more details. Information for safe use of this product is not included in this document. Before handling please read
