Technical Data Sheet SPI-DIPA

Applications:

Shampoos
Shower gels
Bubble baths
Hand soaps
Any general cleaner

Benefits:

- DEA-Free
- Foam boosting
- Viscosity control

Description:

SPI-DIPA is Cocamide DIPA from whole Coconut Oil. This fully liquid, DEA-free amide has emerged as one of the most exciting and successful replacements of the DEA/MEA amides. SPI-DIPA performs like traditional alkanolamide surfactants with tremendous foam boosting, wetting, detergency, foam stabilization, and viscosity control.

| Typical Properties | SPI-6 |
|--------------------|----------------------|
| Appearance | Clear, Yellow Liquid |
| Active, % | 100 % |
| pH, 1% | 9-11 |
| Free DIPA, % | 8-12 |
| Water Solubility | Dispersible |
| Type | Nonionic |
| Color, Gardner | 5 max |

Please note: The typical properties listed in this bulletin are not intended for use in preparing specifications for any particular application of Silicones Plus materials. Please contact our Technical Service Department for assistance in writing specifications.
