Product Information: SPI-Soft SLG

INCI Name: Sodium Lauroyl Glutamate

Description:

SPI-Soft 30S is a very mild surfactant for personal care, based on L-glutamic acid, a naturally occurring amino acid. It is used mainly for the production of hair and body care products, such as shampoos, shower gels, liquid soaps, cleansing lotions and baby care products that are gentle to the skin.

Chemical Structure:

Specification	Typical Properties
Color (APHA)	150 Max
Appearance @ 25°C	Colorless to pale yellow liquid
pH @ 25°C	10 - 11
Solids @ 140°C, 1 h	28 – 32%
Sodium Chloride	4.0 – 6.0%

Benefits:

- Mild surfactant which leaves skin an extremely pleasant silky feel
- High foaming power particularly in the acid range
- Improves the overall foam structure of the product
- Improves hair wet/dry comb-ability
- Excellent biodegradability
- Moderate tolerance to salt and hard water

Shelf Life & Storage:

2 year from date of manufacture when stored at 15°C or higher in original unopened container. *Important Note:* At low temperatures, SPI-Soft SLG may appear cloudy and even form solids due to reduced solubility in water, and it will clear up upon heating. Shake well after heating and before use to ensure uniformity.

Packaging:

200 kg/drums
