

UNISTAB S-69

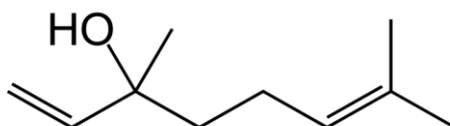

NEUTRAL ODOUR CORRECTANT FOR ELIMINATING THE TROUBLESOME CHARACTERISTIC SMELL OF COSMETIC BASES

Composition Unistab S-69 is a mixture of a two naturally occurring essential oils together with a fragrance:

Farnesol.

and **Linalool**

This composition has a weak odour, but is able to mask other unpleasant smells or change them into more pleasant odours.

Appearance Slightly yellowish clear liquid with a faint characteristic odour.

Analytical data See specifications.

Solubility Soluble in paraffin oil, vegetable oils, ester oils and other types of cosmetic lipids. Also soluble in alcohols and glycols.
Insoluble in water.

Properties Unistab S-69 is a mild, exceptionally skin friendly odour correctant with considerably pronounced odour-neutralizing properties.

Unistab S-69 is suitable for rounding off undesirable characteristic smells of certain cosmetic bases.

Unistab S-69 has been dermatologically tested and is tolerated by the skin without problems.

Use Unistab S-69 is suitable for use in all types of cosmetic products in which the smell due to their composition is to be neutralized or rounded off.

Unistab S-69 is moreover also used for standardizing the smell of natural products which have variable characteristic smell.

It can be used in all kinds of cosmetic products, emulsions, oils, gels, sticks etc.; in the same way as normal fragrances are added to the formulations.

Regulations Farnesol and Linalool and parts of the Parfum composition are listed in Annex III of the EC Cosmetic Regulation. The presence of the substances in cosmetic products must be indicated in the list of ingredients when their concentration exceeds 0.001% in leave-on products or 0.01% in rinse-off products
